

21 November 1986

MEMORANDUM CIRCULAR #86-05

Building Administrators Concerned

Ayala Corporation is initiating an intensive clean up and beautification drive with the district's main thoroughfares as initial targets. In this relation, our Association members, particularly those whose buildings are on Ayala Avenue, Paseo de Roxas and Makati Avenue are earnestly urged to cooperate closely in this effort.

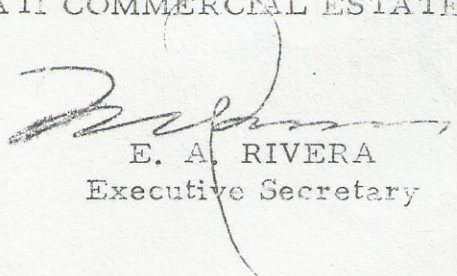

As a complementary move, Building Administrators concerned are advised to pay particular attention to:

1. Removal of graffiti on building's facade;
2. Removal of posters of any sort pasted on walls;
3. Refurbish or improve plantings in plant boxes or landscaping features on the building's frontage within their property lines;
4. Such other matters or activities that contribute to the overall success of this project.

The target date for the completion of these activities is 30 November 1986.

We need not emphasize here that the ultimate beneficiaries of this undertaking are the buildings in this specified area of the project. It is anticipated that your favorable cooperation will be extended.
