MACEA Compound, Amorsolo/Tindalo Sts.
Makati, Metro Manila

08 January 1988

MEMORANDUM CIRCULAR #88-01
For: Building Owner-Members
Building Administrators

A recent survey conducted shows that your building's garbage containers are located outside your property's premises. Said containers are either on the sidewalk area behind your building or on the vacant lot adjacent to your property.

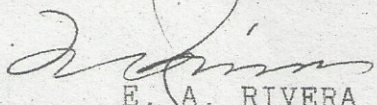

In this connection a copy of Memorandum Circular #86-03 is attached to remind you of the Association's regulation on the matter of the location of garbage receptacles. Furthermore, it will serve as a refresher for all concerned on the rationale of this regulation, particularly the penal provisions thereof.

Please relocate your garbage containers within your property's premises soonest after receipt of this request. A follow up verification after at least a week will be conducted to confirm compliance.

Failure to comply with the requirement will constrain us to impose strictly the daily fine of P250.00 until such time when cooperation is extended by building(s) concerned.

Please be guided accordingly.
