NOTICE OF FINAL WARNING

18 April 1988

MEMORANDUM CIRCULAR # 88-03

For: Building Owner-Members  
Building Administrators  
Construction Projects Engineers

About the second week of February 1988, we launched an intensive cleanliness and sanitation campaign within our district. All concerned have been furnished with copies of the Association's rules as well as decrees and other ordinances on garbage disposal and sanitation within our business community. Our Security monitoring the area has reported that, despite verbal and/or written notices on violations, very little or no corrective action were taken on cited infractions.

In view of the foregoing we are left with no alternative but to enforce strictly the punitive/penal provisions of MACEA Memo Circulars #86-03 and/or #75-01 effective as of the date you receive this notice.

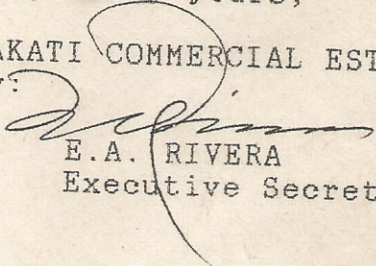

Your buildings' / constructions' premises will be monitored regularly and if violations are discovered our Security will issue on-the-spot violation citations. The corresponding fines will be imposed. If the same conditions continue further fines will be imposed until you comply with the rules and the situation is corrected.

Please be guided accordingly.

Very truly yours,

MAKATI COMMERCIAL ESTATE ASSN.
