MEMORANDUM CIRCULAR 90-08  
Building-Owner Members

Early this month government mandated policies particularly increased costs of gasoline and other petroleum products as well as adjustments in the daily minimum wage affected the operational costs of our garbage collection contractors.

In this light, our Contractors have requested for corresponding increases in the current level of garbage fees to cover the added-on operational costs.

After a series of meetings with our Contractors, an adjustment rate was agreed upon. This new rate of dues is such that it should not be too burdensome to the members without affecting the operational efficiency of the garbage collection efficiency in our community. With the foregoing, the MACEA Board have convinced our Contractors to limit the increase of fees to 25% over the current rates.

Effective therefore on November 1st, 1990, the new garbage collection fees will be:

P625.00 for the 1st 2,500 sqms gross floor area or less;  
plus: P0.075 for every sqm of gross floor area beyond 2,500 sqms.

The Board is extending its appreciation for your kind support to maintain a clean and sanitary business community.

Thank you.
