06 October 1993

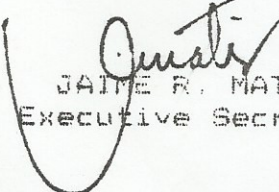

MEMORANDUM CIRCULAR 93-08:

To All Building Administrators Concerned

It has been observed that some garbage receptacles/bins/containers of the building are located in the basement or in a remote place making the collection of garbage too tedious resulting in the delay of this basic service to other members.

In view of MACEA's desire for an expeditious collection of garbage, we enjoin you to make readily available your garbage receptacles/bins/containers near the street or to an area easily accessible to garbage collectors during collection time.

Thank you.

JAIME R. MATIAS
Executive Secretary
