

MAKATI COMMERCIAL ESTATE ASSOCIATION, INC.

18 January 1994

MEMORANDUM CIRCULAR 94-02:

To All Concerned

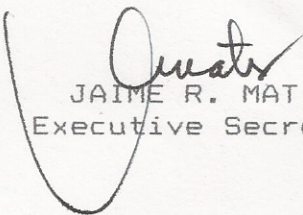

The Association, faced with the non-compliance of some constructors to MACEA's Construction Rules and Regulations particularly on cleanliness and sanitation standards, hereby reminds owners, project managers, and constructors to strictly observe the following :

1. Concrete mix and its residue should not be allowed to spill on the street. Washing the spillage into drainage inlets is strictly prohibited. Likewise, washing and cleaning of mixer chute on the street and vacant lots are not allowed.

2. During pouring operations, only one transit mixer must be parked near the project. Other transit mixers waiting for their turn, must be at least 200 meters away to avoid creating traffic situation. Personnel should be assigned to assist traffic during said operations.

3. Construction noise should be maintained at a tolerable level beginning 10:00 p.m. to 6:00 a.m. the following day. Noise-generating activities such as jackhammering, shouting, drilling are not allowed during the indicated time.

Your utmost cooperation will be most appreciated.

JAIME R. MATIAS
