Makati, Metro Manila

August 23, 1994

MEMORANDUM CIRCULAR 94-07

To All MACEA Members/Building Administrators

Due to the recent alarming fire incidents which have occurred within the Makati Central Business District, we are pleased to announce a program for the organization of Fire Fighting Brigades (FFB) in every building located within the said district. This "quick-response-to-fire" program is in line with the Makati Commercial Estate Association's (MACEA) desire to improve the fire fighting capabilities of its members.

It should be noted that the FFB's main task is to react immediately to any fire incidents, as well as to have a preventive fire program in each building.

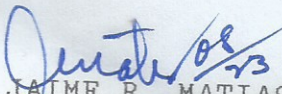

Aside from the necessary equipment, manpower training is essential. The program would entail the training of the FFB, to be implemented under the auspices of MACEA and to be conducted by the Makati Fire Department. Training is important as this will prepare the FFBS for any eventuality.

Please accomplish the form below indicating the number of participants you wish to send, and return it to:

Makati Commercial Estate Association, Inc.
Mini-Park, Legazpi St., Legazpi Village
Makati, Metro Manila

We, therefore, urge all MACEA members to participate in this worthy undertaking.

Thank you.

JAIME R. MATIAS
Executive Secretary
