MEMORANDUM CIRCULAR 97-15

TO: ALL CONCERNED

RE: CLEANING/WASHING OF CONCRETE TRANSIT MIXERS

It has been observed that most of our drainage lines are clogged with cement residues dumped from concrete transit mixers being cleaned after pouring operation. The association has incurred additional cost and, more importantly, time for declogging the drainage lines.

Effective immediately, therefore, no cleaning and washing of concrete transit mixers will be allowed within the MaCEA area. Ready-mix concrete suppliers found violating this circular will be banned from entering the MaCEA area. We urge all developers and contractors to ensure compliance of this policy by your suppliers to avoid disruption of construction operation.

JAIME R. MATIAS
Executive Secretary
