November 09, 2011

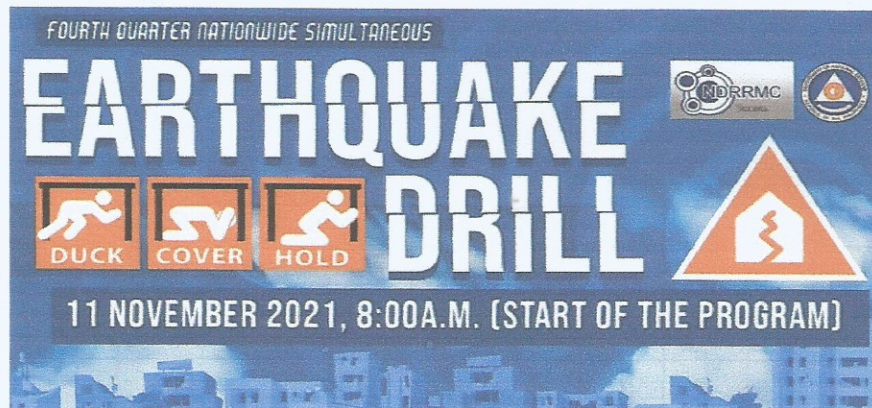

ADVISORY 2021-1109

TO : ALL MEMBERS/BUILDING ADMINISTRATORS

SUBJECT : ONLINE NATIONWIDE SIMULTANEOUS EARTHQUAKE DRILL
4TH QUARTER 2021

The National Disaster Risk Reduction and Management Council will once again hold its quarterly Nationwide Simultaneous Earthquake Drill on **Thursday, November 11, 2021, at 8:00 a.m.** We encourage everyone to participate and perform the "DROP, COVER & HOLD" procedure while observing proper social distancing protocol. In line with this, we will activate our Earthquake Early Warning Device for **1 minute** which sound covers around 2 km radius from center. Loud noise is expected upon sounding of the alarm. Please disseminate this notice to your guests, customers, and employees to avoid panic during the drill. No evacuation drill scenarios will be conducted in compliance with the minimum public health measures.

Thank you and we are looking forward to your support as we continue to enhance our preparedness and resilience to any eventualities.

Sincerely,

JONATHAN C. DAVID
General Manager
