Dear Members,

Please be informed that MACEA's accredited contractor, Fastel Services, Inc., will install the underground conduit network along Makati Avenue and Ayala Avenue from **August 12, 2024, to September 13, 2024**. This work is essential to complete the single raceway for all telco providers in MACEA, ensuring a more resilient infrastructure for our communication systems.

The project involves road excavation, conduit installation, and road restoration. The work will take place from **10:00 PM to 5:00 AM** only. During the daytime, steel plates will be installed to allow vehicle access. Below is the layout for your reference.

Rest assured that traffic marshals will be present, and road signs will be placed in strategic locations to ensure traffic safety.

We appreciate your cooperation in this important endeavor.
