MEMORANDUM CIRCULAR 2000 – 09

TO : ALL LOT OWNERS/DEVELOPERS

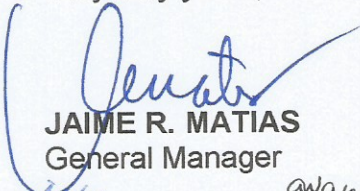

RE : POWER AND TELECOMMUNICATIONS SERVICE ENTRANCES

Due to the requirement of the Deed Restrictions that all service entrances for utilities should be by means of underground conduit or pipes from the main service lines, we remind all lot owners and developers to incorporate in the plans for a proposed building project the **provision for underground service connections for power, telecommunications, etc.**, in order to facilitate processing and to avoid costly revisions of the plans.

In addition, the Association does not allow service boxes, pull boxes, handholes and the like, to be located on the sidewalk or within the road carriageway. These should be located inside the property lines.

Please be guided accordingly.

Very truly yours,

JAIME R. MATIAS
General Manager
