MEMORANDUM CIRCULAR 2003 – 14

FOR : ALL MEMBERS/BUILDING ADMINISTRATORS

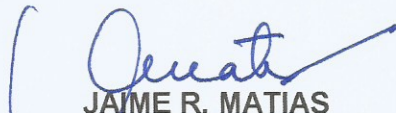

RE : PROVISION OF UNDERGROUND SERVICE ENTRANCES

In line with MaCEA's requirement as stipulated in the Deed Restrictions regarding the underground service entrances for all utilities (telecommunications, CATV, power, etc.), please be informed that the Association has required all telecommunications and CATV carriers to fast track their underground system within the Makati Central Business District for the eventual removal/relocation of all aerial installations by December, 2004.

If your building does not have provisions for said underground service entrances, we urge that the construction of such be undertaken before December, 2004. MaCEA shall no longer issue permits for aerial cable installation after the said deadline.

You may coordinate with your telecommunications/CATV carriers with regards to the appropriate design of the underground service entrances applicable to your building's requirements.

Very truly yours,

JAIME R. MATIAS
General Manager
awala

Cc: Board of Governors
