MEMORANDUM CIRCULAR 2019-03

TO : ALL CONSTRUCTION MANAGERS OF ON-GOING BUILDING PROJECTS

RE : AS STATED

It has been observed that many on-going construction projects have not yet fully implemented good housekeeping practices and proper safety procedures within project sites.

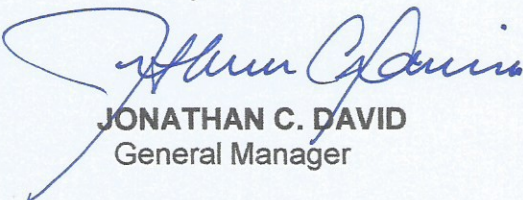

It was noted that some projects maintain dilapidated or unsightly fence/board-up and safety net, no provision for safe passageway of pedestrians as well as irregular hauling of debris and garbage.

In light of the above findings, we advise all erring construction sites to immediately implement the following:

1. Repair of dilapidated/unsightly construction fence, board-up and safety nets.
2. Provide proper passageway for pedestrians.
3. Schedule regular hauling of debris and garbage.

Applicable sanctions may be imposed for non-compliance.

Thank you.

JONATHAN C. DAVID
General Manager
